ABOUT GPS

Agribusiness Think Tank and Action Tank of the American Southern Cone

WHAT WE DO?

We promote global food security through the international insertion of sustainable agri-food systems

HOW WE DO?

- Promoting analysis and developing content
- Communicating
- Articulating positions and establishing consensus at the local, regional and international levels

GPS AND CARBON SECUESTRATION

GPS promotes the international insertion of sustainable agri-food systems.

Analyse, design and propose sector initiatives, public or private

Promotes international alliances

OUR AGENDA IN THIS MATTER

We are promoting research on carbon sequestration in soils and the coordination of agendas of national and regional agricultural research organizations.

We promote the implementation of regional business certification schemes.

We seek to quantify the impacts of implementing more sustainable production systems.

We seek to quantify the global impacts of the imposition of unjustified barriers to trade.

THANK YOU!!
