

# Reaching Cotton Farmers with Agrometeorology Services

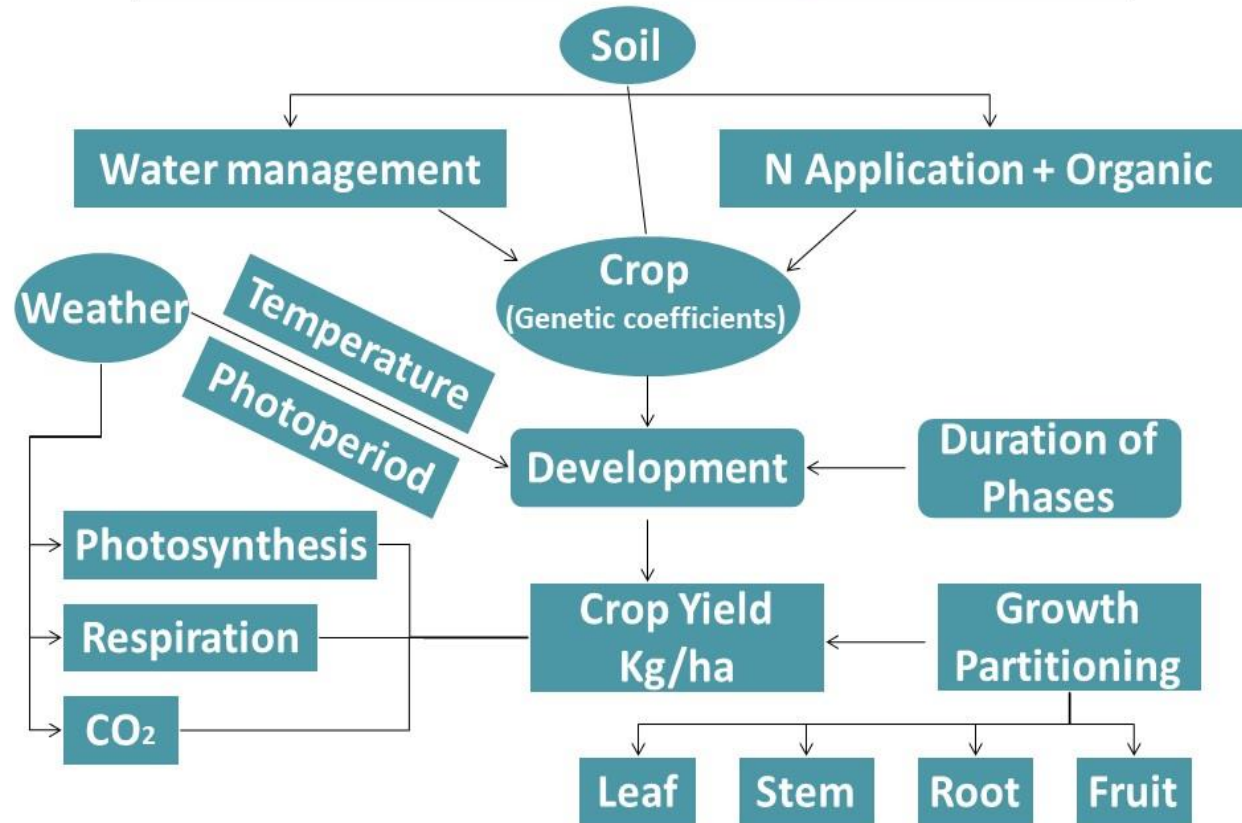

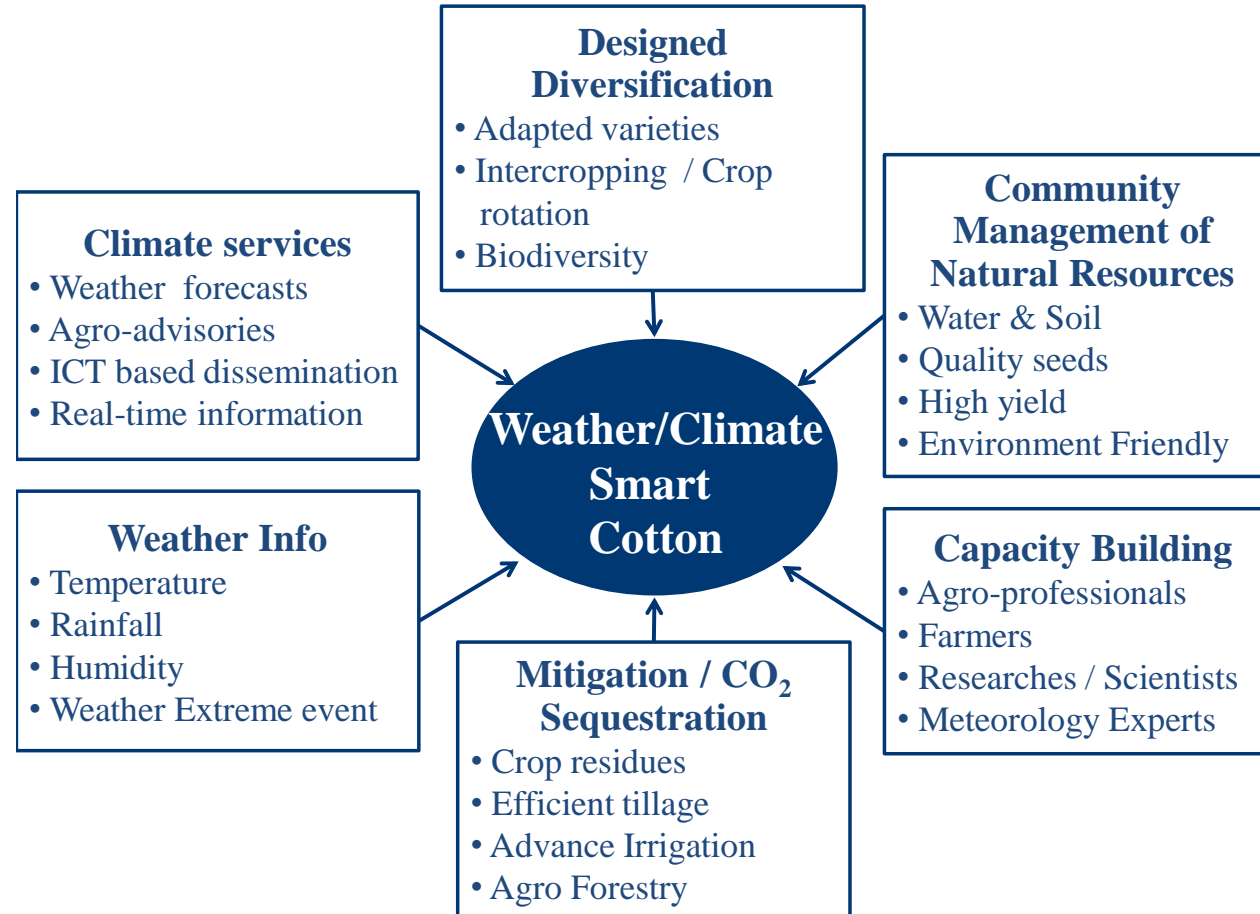

clima<sup>ct</sup>

| Carbon-smart                      | Water-smart               | Yield-smart   | Risk-smart                                | Community-smart   |
|-----------------------------------|---------------------------|---|---|---|
| Site-specific nutrient management | Rotation with upland crop | Tolerant varieties  | Salinity monitoring and land use planning | Improved stakeholder interaction (Climate-smart villages) |
| Alternate Wetting and Drying      |                           | <br>(floods, salinity) |   |   |
| Mobile phone applications         |                           |   |   |   |

# RELATION BETWEEN CROP-GROWTH & WEATHER(S-W-A-P)

## Team ClimAct

**Dr. Tabinda Khawaja**  
(PhD in Animal Sciences)

**Huma Qamar**  
(MSc in Plant Breeding)

**Dr. Adnan Arshad**  
(PhD in Agrometeorology)

**Dr. Nazia Tahir**  
(PhD in Soil Sciences)

**Farzana Ashraf**  
(BA in Sociology)

**Shahla Khan**  
(MBA Finance & Marketing)
