

Simpson Foundation Malawi Nature 4 All

**Optimize free Sunlight to end
hunger**

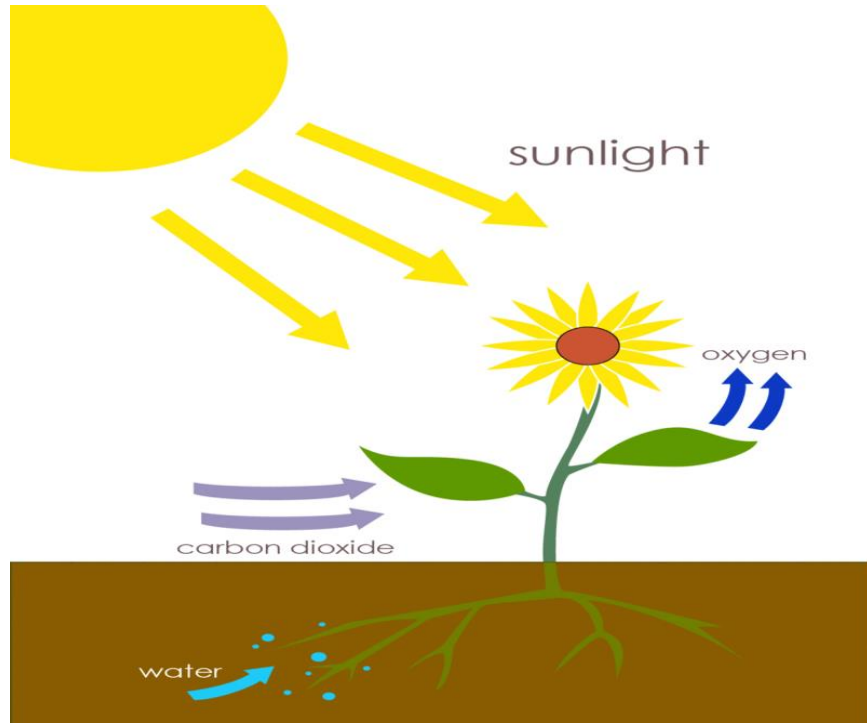

**Solar corridor planting to increase
crop yields in Malawi**

Can the Solar Corridor Farming System (SCFS) contribute to increased yields in Malawi , and by how much?

More effective and efficient use of the sunlight to increase crop yields

Solar Corridor farming System Management strategies

1. Minimal tillage

2. Cover crop

Management strategies

Crop residue retention

Crop rotation

Solar corridor farming system has potential to increase yields in Malawi
