

THE O2C MARKETPLACE

SCALABLE LOW-COST CARBON REMOVAL

Purchase high quality carbon credits while improving the lives of thousands of small farmers!

CERTIFIED CARBON CREDITS FROM FARMERS ALL AROUND THE WORLD!

Soil carbon can store 20% of humanity's yearly carbon footprint at low cost!*

*UN IPCC Estimate

Farmers increase soil carbon by adopting practices like cover crops, crop rotations and more

Buy globally-recognized credits for carbon removal, at prices as low as \$5/ton and quantities as large as 1 million tons

We verify and enable farmers' carbon removal using satellites and artificial intelligence to measure soil carbon
