## Team

Anne Trombini

Lea Lugassy

## Location

France

## Summary

PADV developed the Regeneration Index: a farmer-friendly tool, free and open-source, to evaluate the agroecological level of farms. Today, this tool is used by many farmers, but also by many corporations and firms from the food sector (farmer cooperatives, wholesale trade, transformation, distribution...) to monitor their agroecological transition.

## Presentation

## Images

### No images found!

Couldn't find any images to display. Attach some images to this page or search for images by label or page.

Depending on the size of your Confluence instance, you may also want to refresh the page, as it may take some time until the images appear.

## Videos

## Meet the team

During the indicated periods, one of the team members is available for a video chat.
