

Biochar Session at GLF Conference Restoring Africa's Drylands

The Global Landscapes Forum on the Restoration of Africa's Drylands is held 2.-3. June.

Take part in the first-ever digital conference focused on restoring Africa's drylands.

The GLF Africa Digital Conference will be packed with inspiring speakers, the latest science, concerts, film screenings, virtual tours, networking, and more unexpected discoveries on a two-day virtual journey across these extraordinary landscapes.

The **GIZ Sectoral Project Soil Protection** is going to host a session on **Biochar and its practical application to restore degraded lands**.

Check out the [Agenda - Global Landscapes Forum Events](#) to see all sessions, talks and side events.
