Contact

Partnerships

Clients / Target group

The AgriCircle soil service is offered B2B to companies running a soil carbon initiative or that are looking for best in class services to add value to their products and to create additional customer value and business

Established collaborations and partnerships

The product has been developed together with the European Space Agency (ESA), ETH Zurich and LUFA Nord-West

Desired collaborations and partnerships

Seeking for partnerships in the area of soil carbon, soil carbon sequestration and soil management. We deliver our services via API or as a white label in order to improve soil pattern detection and respective field task optimization
