Workshop for farmers: awareness and advocacy for soil health

Training session

Cholistan Phase I Assessment

Our Young Entrepreneurs	
-------------------------	--

CPCCF practical ...soil health .mp4

Dr Usman trained under CPCCF in Holistic Land Management and Grazing practices to learn how to revive the soil and land in his family owned Farm. His family disappointed with outcomes form their farming outputs had wanted Usman to go to the cities to become a professor His education had geared him towards Animal Sciences and he obtained his Phd. On joining CPCCF's project he was inspired to implement the strategy to his family farm. reluctantly his father allowed him to use 50 acres of the land. Usman has established a grass fed organic livestock company as well as is retiring his abandoned land to life improving soil and preparing it for further development.

Toady Usman lives on his Farm raising livestock and his young family. He has adapted the savory method of wired paddocks to local method and uses his sheep dogs that he trained to manage the herds from paddock to paddock.
