Summary

? Unknown Attachment

Gaïago is focused on providing innovative solutions - based on selective microbiology activation - primarily on soil revitalization. We offer Ag inputs and services to put the soil back at the heart of agriculture with agronomic, economic and environmental benefits among which carbon sequestration is high on the agenda. Our goal in joining the Fair of the 4p1000 Initiative on the theme of *Soils for Food Security and Climate* is to create exchanges about the importance of soil revitalisation for the agro-ecological transition and the pragmatic ways to achieve it.

Gaïago - 4P1000 Fair.pdf

Gaïago offers products and services to put the soil back at the heart of agriculture with agronomic, economic and environmental benefits. We bring a notion of global approach to agronomic ecosystems. As an expert in soil and plant prebiotics and probiotics, Gaïago supports the agro-ecological transition for all types of agriculture.
