

Creation of Task Forces - Intro Text

Introduction

Since June this year the "4 per 1000" international Initiative has set its Strategic Plan.

Now that the strategic plan is in place, we must work on its implementation as quickly as possible. We want YOU to be involved in the implementation! Our common vision is to have healthy and carbon-rich soils worldwide to fight climate change and end hunger. We can only achieve this with your knowledge and support. In return, the "4 per 1000" Initiative makes your voice heard, arranges partnerships and thus facilitates the acquisition of resources and support for the realization of your projects.

The strategic plan comprises 24 objectives with specific targets for 2030 and 2050. We intend to create 24 Task Forces, one for each objective.

Therefore we'd like to ask you to join the Task Forces that are of special interest to you and your organization. Joining a Task Force will allow you to extend your professional network, to learn, to improve visibility of your contribution and to benefit from working together in an international team. Exchange and collaboration is facilitated by our cutting edge electronic platform that Task Force member may also use for decentralized development of their related actions and projects. After registration the Task Force Facilitator will guide you.
